| 1:00p - 2:00p | ACCESS, SERVICES, & DESIGN | **MODIFICATIONS TO POLICIES AND PRACTICES: A PRACTICUM**  
After an overview of the “reasonable modifications” provisions of the ADA regulation and an exploration of recent case law, we’ll explore several scenarios together and in groups. The goal is to understand how to approach requests or needs for modifications and how to work with the requester and your entity’s managers and staff in deciding on the “right” approach.  
*Irene Bowen with John Wodatch* |
| EMPLOYMENT | **WHAT YOU DON’T KNOW CAN HURT YOU** | Every employer needs to ensure their employee qualification standards and essential functions are legitimate. Demonstrative case studies and case law will be presented and discussed.

| 2:15p - 3:15p | HIGHER EDUCATION | **“HOUSTON, WE HAVE A PROBLEM” - CHALLENGING ACCOMMODATION REQUESTS**  
Brandy has a service dog and Brady needs his comfort cat. This session will outline important practice for your campus in flexible attendance, extended time on tests, quizzes and assignments and three challenging housing areas: Allergies; Requests for single room for a variety of issues including mental health concerns; and Service animal policies and when a request for an assistance animal must be considered as an accommodation.  
*Paul Grossman with Melissa Frost, Howard Kallem, Jim Long* |
| ACCESS, SERVICES, & DESIGN | **PROGRAM ACCESSIBILITY: PROVIDING SERVICES WHEN NOT ALL BUILDINGS ARE ACCESSIBLE**  
Title II prohibits discrimination in the “services, programs, or activities of a public entity.” Since 1977 the Federal government has used the concept of “program access” to address providing access in an environment where not every building is accessible. Learn what program access means today, how it applies to programs offered at different types of facilities, and how the 2010 Standards affect a public entity’s obligations.  
*John Wodatch with Irene Bowen and Jim Terry with Dean Perkins* |
| EMPLOYMENT | **LET’S BE REASONABLE - PART ONE** | Using realistic scenarios, this two-part interactive workshop will address legal concepts and demonstrate how human interaction and emotions can affect the interactive process. The panel will provide practical approaches and possible solutions to the “not so easy” accommodation requests.  
*Allison Nichol with Brian Nelson, Mary Jo O’Neill, Nicole St. Germain* |
| HIGHER EDUCATION | **“THE STUFF THAT DREAMS ARE MADE OF” - ACCOMMODATION SUCCESS STORIES** | Effective academic adjustments are often the crucial difference between success and failure for a student. As the ADA Coordinator, you play a crucial role in providing equal opportunity to reach the student’s goals and dreams. This session will highlight successful student outcomes when effective academic adjustments are implemented.  
*Melissa Frost with Paul Grossman, Howard Kallem, Jim Long* |
| ACCESS, SERVICES, & DESIGN | **HEALTHCARE: FACILITIES, DIAGNOSTIC EQUIPMENT, AND POLICIES** | Accessible healthcare is a topic of growing interest and the Access Board’s publishing of the Medical Diagnostic Equipment Standards (for equipment like exam tables and scales) is generating additional interest and questions among ADA Coordinators, healthcare providers, and policy makers. This session reviews requirements for accessible healthcare from a policy, facilities, and equipment viewpoint, explores strategies that public health and private medical providers may use for compliance, and reviews how other mandates, such as those for effective communication and reasonable modifications, also apply to accessible healthcare.  
*Jim Terry with Irene Bowen, John Wodatch* |
| EMPLOYMENT | **LET’S BE REASONABLE - PART TWO** | Part Two builds on the legal and emotional factors affecting the interactive process covered in Part One and presents scenarios and solutions for complex accommodation situations.  
*Allison Nichol with Brian Nelson, Mary Jo O’Neill, Nicole St. Germain* |
| HIGHER EDUCATION | **“TO INFINITY AND BEYOND” - ATHLETICS, FIELD WORK, AND TRAVEL** | Technical and academic standards often extend beyond the classroom. Follow Brandy and Brady through academic adjustments in athletics, field work, and travel. In this scenario-based session, learn how to determine the academic and technical elements of department, program, and class, and to recognize requests for fundamental alterations.

| 1:00p - 2:00p | RAISING UP THE RIGHT TO BE RESCUED  
When the Real Emergency Strikes – Emergency Preparedness - Part One  
As our society confronts more emergencies that test the limits of our capabilities, tough decisions will lie ahead. Although popular accounts sometimes state that the tenet of natural disasters is that they choose their victims capriciously and without remorse, the truth is far more disturbing—we choose the victims by failing to accommodate their needs. Challenging ourselves to remember that all members of society should have access to opportunities regardless of the impairments they may face may be the most difficult in moments of crisis; it is also no less important then. All too often, litigation serves to drive home lessons a willing listener could have learned long ago, litigation could have been avoided, and the parties could have gotten down to the business of crafting solutions much sooner.  
*Michael Smith with Irene Bowen, Phong Nguyen, John Wodatch* |
| 2:15p - 3:15p | EMERGENCY PREPAREDNESS - PART TWO  
In Part Two we’ll start by going over detailed plans that anticipate the needs of all people and outline clear strategies for meeting those needs. The emergency preparedness plans must provide for effective, detailed communication with all people before, during, and after emergency events. Other considerations are planning for the needs of mobility devices and service animals. Also, there requires planning with first responders for emergency evacuation of your facilities.  
What really happens after the emergency evacuation plan is in place? Does everyone know their role? How did the practice drills go?  
These sessions are designed to be interactive and addressing real-life issues.  
*Michael Smith with Irene Bowen, Phong Nguyen, John Wodatch* |
| 3:30p - 4:30p | ADA COORDINATORS - A PERSPECTIVE  
You are your agency’s/entity’s/company’s ADA Coordinator. The session will help you work within your organization to ensure you have the knowledge, funding, and resources - and buy-in - you’ll need to succeed. Where do you start? How do you make progress? What do you need to know? What essential training and/or resources will you and your co-workers (and managers/ supervisors) need? Who do you have to work with? How do you convince them that what you need to do is required, essential, and important?
